PROFESSIONAL SUMMARY

I am a software development-focused B.Tech graduate in Information Technology. I have good programming and web development skills, as well as a strong foundation in problem-solving. I am interested in developing and implementing solutions. I am a quick learner who enjoys working in a new and dynamic environment, particularly when the work involves learning and working with new technologies. I am looking to gain valuable experience in software development and acquire new skills.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python
Frameworks & Technologies: Spring Boot, React, REST APIs
Database Management: MySQL, MongoDB, SQL
Core Concept: Object-Oriented Programming (OOP), DBMS, Problem-Solving
DevOps & Tools: Git, GitHub, Docker, Jenkins, Postman
Cloud Computing: AWS Cloud Foundations

PROJECTS

ThreatGuard – Real Time Cyber Threat Intelligence & Auto-Defense System 2026

Technologies: Python • Flask • React • SQLite • Gemini API

- Developed an AI-powered Cyber Threat Intelligence platform integrating AlienVault OTX and Google Gemini API to collect, analyze, and summarize real-time cyber threat intelligence.
- Designed REST APIs, implemented threat scoring, role-based dashboards, and automated response workflows to enhance cyber threat monitoring and analysis.

Hotel Management System 2025

Technologies: HTML • CSS • JavaScript • XAMPP • PHP • MySQL

- Built a web-based hotel management application to simplify room reservations, booking cancellations, and room availability tracking
- Implemented database connectivity using MySQL to manage reservation details and developed an interactive interface for smooth user navigation.

Multiple Disease Prediction System 2025

Technologies: Python • Scikit-learn • Pandas • NumPy • MySQL

- Developed a machine learning application using Logistic Regression and Random Forest algorithms to predict multiple diseases from patient health data.
- Performed data preprocessing, feature engineering, model training, and evaluation to improve prediction accuracy and model performance.

EDUCATION

B.Tech – Information Technology | Kumaraguru College of Technology 2022 – 2026
CGPA: 7.9

CERTIFICATIONS

- **Coursera Certifications:** Software Engineering, Principles of DevOps, Machine Learning Techniques, and Information Security.
- **AWS Cloud Foundations:** AWS Academy
